Round About a Great Estate

Richard JEFFERIES (1848 - 1887)

John Richard Jefferies wrote of country life, natural history, and agricultural practice at a time when the industrial revolution was bringing great change to long-settled patterns of English life. In this book, a work of fiction, he aims to tell us something of "the former state of things before it passes away entirely." This is a gentle book with a keen eye for the beauty of the countryside, the uncultivated bonuses of plants and flowers; the antics of the birds and wild animals; and the agricultural practices, superstitions, and great generosity of the simple country folk who live on or about the Great Estate of the title.
